Summary

Motivated web developer with a passion for coding and a strong foundation in web development technologies. Eager to apply my skills and expand my knowledge while contributing to web development projects.

Projects

[JDesigno](#)

- Crafted a modern, 7-page website featuring 5 distinct templates with a mobile-first design approach, ensuring full responsiveness across various devices.
- Enhanced user experience by integrating interactive maps using Leaflet.js for React, enabling JDesigno customers to explore physical locations seamlessly.
- Leveraged advanced web development techniques, including conditional rendering based on URL path and interactive hover states, to create a dynamic and engaging user interface.
- Prioritized scalability and performance optimization by implementing responsive image rendering tailored to different screen sizes.
- Utilized a robust tech stack featuring ViteJS, React, React Router 6, Tailwind CSS, and Leaflet.js for a cohesive and efficient development process.

[FakeFlicks](#)

- Developed the front end of a fully responsive, multi-page web entertainment application from scratch.
- Implemented a modern user interface with interactive hover states for enhanced user experience.
- Integrated essential features, including a dynamic search function and a user-friendly bookmarking system.
- Categorized content into TV series, movies, and bookmarked for easy navigation.
- Utilized a tech stack consisting of ViteJS, React, React Router 6, and Tailwind CSS to ensure optimal performance and maintainability.

[Dream Estates](#)

- Developed a feature-rich, fully responsive, and mobile-friendly real estate web application using a modern tech stack.
- Utilized React and Chakra-ui for the frontend to ensure an intuitive and visually appealing user interface.
- Implemented Next.js for efficient routing and fetching data and images from RapidApi to populate property listings.
- Empowered users to explore available properties for sale or rent with a comprehensive set of filtering options, including criteria like price, number of rooms, and more.
- Enhanced user experience and interactivity, making it easier for users to find their ideal property.
- Ensured seamless functionality across both desktop and mobile devices.

Skills

Javascript, TypeScript, HTML5, CSS, Ruby, ReactJS, NextJS, Ruby on Rails, Tailwind CSS, Bootstrap, Chakra UI, Material UI, Git, GitHub, Communication skills, Quick Learner, Problem Resolution

Education

Codecore College | New Westminster, BC
Web Developer Diploma Program | 05/2021
